

KTH MECHANICAL ENGINEERING CHAPTER'S CAREER FAIR

MOMENT

EXHIBITOR'S GUIDE 2026

WELCOME TO MOMENT

My name is Marlon, and I'm the project manager for MOMENT 2026.

Under the name MOMENT, a series of events is organised annually by the Mechanical Engineering Chapter at KTH, where companies and students get the opportunity to connect. Through activities such as case evenings, one-on-one meetings, lunch lectures, and a career fair, we're confident that together we'll find the perfect match for your company.

We're looking forward to an exciting and rewarding collaboration during the coming autumn and spring!

If you have any questions about MOMENT, the fair, or anything else, you're more than welcome to contact me or anyone else on the project team.

You'll find our contact information at the end of this catalogue.

OUR STUDENTS

The Royal Mechanical Engineering Chapter has over 1,000 members, making it the largest chapter at KTH. The chapter includes students from the Master of Science in Engineering programs in **Mechanical Engineering** and **Design and Product Realisation**. During years 4 and 5 (of 5), students can choose from a total of 15 different master's programs.

Mechanical Engineering 300 credits

Mechanical Engineering is a broad field of study that combines mathematics, natural sciences, and applied technology. Students learn to develop sustainable technical solutions and have a wide range of career opportunities after graduation — for example, in design, energy, manufacturing, and management.

Design and Product Realisation 300 credits

This program shares many similarities with Mechanical Engineering but places extra focus on the entire product development process, both theoretical and practical. Students gain extensive knowledge in both technology and design, preparing them for careers in areas such as design, project development, sustainability, and construction.

Our Master's Tracks

- Aerospace Engineering
- Vehicle Engineering
- Engineering Mechanics
 - Solid Mechanics
 - Fluid Mechanics
 - Sound and Vibrations
- Naval Architecture
 - Lightweight Structures
 - Management
- Industrial Management
- Industrial Production
- Mechatronics
- Nuclear Energy Technology
- Sustainable Energy Systems
- Technology and Sustainable Development
- Applied Mathematics and Computational Mathematics
- Sustainable Energy Engineering
- Industrial Product Development
- Integrated Product Design
 - Innovation and Project Management
 - Technical Design

EVENT TIMELINE

We want to make it easy and rewarding for companies to meet our students. That's why we offer a range of ready-made event packages — from inspiring lunch lectures to engaging case evenings and pubs arranged in collaboration with participating companies.

Of course, there's also the option to create something unique, tailor-made for your company's goals and needs.

Whether you want to stick with a proven concept or try something new, our corporate relations team is here to guide you and make sure you get the most out of your participation.

The highlight of the season is the MOMENT Fair, held on February 5, 2026 — a full day of networking, meeting driven students, and building valuable connections for the future.

ABOUT THE FAIR

Next year's MOMENT Fair will take place on **February 5, 2026**, at Nymble, the KTH student union building.

All students belonging to the Royal Mechanical Engineering Chapter will have the fair included in their regular schedule, ensuring that everyone can attend **without schedule conflicts**.

The fair offers companies an excellent opportunity to meet students, showcase their brand, and answer questions. Companies interested in participating can choose between three exhibition packages.

New for this year is the **Small Package**, which focuses entirely on the fair booth — one-on-one meetings can be added separately, of course.

Companies booking either the Standard or Premium Package get larger, more prominently located booths and additional pre-fair marketing. Both packages also include the opportunity to hold one-on-one sessions with students during the fair day.

In total, we're offering 420 m² of career opportunities!

EXHIBITION PACKAGES

SMALL

25,000 SEK

- 4 m² booth
- 1 standing table + 2 chairs
- Instagram post
- 2 banquet tickets
- 4 lunch tickets

STANDARD

35,000 SEK

- 8 m² booth
- 2 standing tables + 4 chairs
- Instagram post/story
- 4 banquet tickets
- 6 lunch tickets
- 1h one-on-one meeting
- Attractive booth placement
- MOMENT transport

PREMIUM

50,000 SEK

- 4 standing tables + 6 chairs
- 1 Instagram post
- 8 banquet tickets
- 10 lunch tickets
- Full-day one-on-one meetings
- Prime booth placement
- MOMENT transport
- Tailored marketing
- Lunch lecture (value 15,000 SEK)
- Panel discussion
- 1 personal MOMENT contact

LUNCH LECTURES

A MOMENT lunch lecture offers companies a unique opportunity to reach a large audience of students at once.

During the 45-minute session, your company can choose to inform, inspire, or spark interest among the attending students. The event takes place on campus during lunch hours, and lunch is provided for the students.

Lunch lectures are very popular and often fully booked. They give students valuable insights into careers after graduation, while also allowing them to ask questions directly to industry representatives.

*“I always try to attend the lunch lectures.
It’s a great way to hear about companies I might not
otherwise come across.”*

– Emma, Mechanical Engineering, 3rd year

Depending on chosen
package

ONE-ON-ONE MEETINGS

One-on-one meetings are personal conversations between companies and selected students. Students first submit their CVs, after which participating companies choose whom they wish to meet.

The meetings are held in a more relaxed setting than a traditional job interview, offering companies a valuable opportunity to connect with promising students — and perhaps identify future colleagues with the exact skills they're looking for.

ONE-ON-ONE MEETINGS

2,000 SEK / hour

- Meet the students that you really want to get in touch with
- Find your future colleagues

CASE EVENING

20,000 SEK

- Takes place at KTH
- We stand for all logistics

12,000 SEK

- Takes place at your office
- We stand for all logistics

CASE EVENING

By hosting a case evening, companies get the chance to engage with students from the Machine Chapter on a deeper level.

The event can be held either on KTH campus or at the company's own premises. Beyond presenting the company, this format offers a great opportunity to observe how students tackle real-world challenges — making it a powerful way to inspire and attract future talent.

NETWORKING PUB

Want to meet students in a relaxed and personal environment? A Networking Pub is the perfect setting! Your company gets exclusive access to *Smörjkammaren*, the chapter's own student venue, for an evening of networking, fun, and creative branding opportunities.

You decide the format — it could be an informal mingle, a pub quiz, a casual presentation followed by an after-work vibe, or even a themed cocktail night inspired by your company.

Our event team assists with brainstorming, logistics, marketing through the chapter's channels, and bar staffing.

WHAT WE OFFER:

- Exclusive use of the venue for the evening
- Opportunity to brand the space (banners, giveaways, quizzes, etc.)
- Promotion via our channels (social media, newsletters, posters)
- Help with creative planning and theme ideas
- On-site logistics and bar staff support

MARKETING

The MOMENT marketing team knows that successful promotion is key to a great event. That's why all MOMENT activities are marketed across several platforms to attract as many students as possible, through social media, the MOMENT website, and on-campus posters in high-traffic student areas.

Interested in becoming Moment's *Main Partner*, with maximum exposure and benefits? Contact us for pricing and details!

THE BANQUET

To round off a successful fair, MOMENT hosts a banquet on the same evening. Banquet tickets are included in the fair packages, but extra tickets can also be purchased at cost price.

The evening begins with a lively mingle — a perfect opportunity for company representatives to continue conversations with the students who organised the fair.

Guests then enjoy a three-course dinner at beautifully set tables, accompanied by entertainment and other surprises.

Later in the evening, the dinner hall transforms into a bar for continued mingling in a relaxed atmosphere. For those who feel like dancing, the dance floor will be open!

OUR PROJECT GROUP

We're here to help you take the next step in every student's career journey.
Don't hesitate to get in touch — we look forward to hearing from you!
