The Royal Mechanical Engineering Chapter
The Royal Institute of Technology
2026/2027

WHO ARE WE?

With over 4 000 thousand students and more than 1 000 active members, the Royal Mechanical Engineering Chapter is the largest student chapter at KTH.

The Chapter represents students in the Mechanical Engineering and Design and Product Realisation degree programmes. In their fourth and fifth years, students can choose from a total of 20 different masters programmes.

— OUR PROGRAMMES —

MECHANICAL ENGINEERING, MASTER OF SCIENCE IN ENGINEERING, 300 CREDITS:

Mechanical engineering is a broad degree programme that combines mathematics, natural sciences and engineering. Students learn to develop sustainable technical solutions and, upon graduation, have a wide range of career opportunities in fields such as product development, energy, manufacturing and management.

DESIGN AND PRODUCT REALISATION, MASTER OF SCIENCE IN ENGINEERING, 300 CREDITS:

The programme shares many similarities with the Mechanical Engineering programme but places greater emphasis on providing a broad understanding of product development, with both theoretical and practical elements. Students gain broad and in-depth knowledge of engineering and design, opening up career opportunities in fields such as, product design, project management, sustainability and engineering design.

WHY COLLABORATE WITH THE MECHANICAL ENGINEERING CHAPTER?

By being a collaborative partner, your company is ensured to be recognised as a potential future employer by the students in the Mechanical Engineering Chapter.

THE CAREER FAIR, MOMENT

Annually, a fair is organised for students where companies exhibit and give students a chance to ask questions, discuss opportunities and create future connections. The fair functions as a central meeting point between students and companies.

MOMENT – FAIR PACKAGES

THE SMALL PACKAGE

4 m² working space
Standard placement
1 standing table

55 000 SEK

Are you interested in becoming the fairs Main Collaborative Partner, or have other ideas on your participation?

Contact **foretag@momentkth.se** to tailor your work fair experience!

More information about the fair can be found at **momentkth.se**

MORE ABOUT MOMENT

TRANSPORT OF GOODS

To and from the fair venue, we offer solutions to help with the transportation of your company's goods.

MOMENT Transport is limited to the Stockholm county.

2 000 SEK

THE BANQUET

After a successful fair, a private banquet is held that same night to thank the student volunteers and the participating companies.

Continue the networking with the students in a more relaxed setting!

1 200 SEK/PERSON

CONTACT MEETINGS

During the fair, companies are offered to hold contact meetings between company representatives and a student, lasting appx. 20 minutes each. Companies select from the pool of applicants, and the conversations provide a valuable opportunity to establish professional contact without being a formal job interview.

2 000 SEK/HOUR

The annual fair is held at the student union building, THS Nymble, offering 420 m² of career opportunities. With around 2 000 visiting students, companies can meet students from across the Mechanical Engineering Chapter.

EVENTS

During the whole year, companies can organise events with students. The events provide fun ways to network with students and allows them to get to know the company.

EVENTS

COMPANY PUB

A company pub offers a personal meeting with students in the Chapter's premises, Smörjkammaren. The format is tailored to your goals, ranging from presentations and mingling to themed activities.

10 000 SEK

COMPANY VISIT

A company visit gives students a glimpse of your establishment through presentation, guided tour and conversations with employees. The length and content of the visit are suited to what the company wishes to showcase.

10 000 SEK

CASE NIGHT

A case night gives students the opportunity to work with a realistic challenge connected to your establishment. You can present your organisation in a relevant context while gaining insight into students analytical and problem-solving skills.

10 000 SEK

Do you want to tailor an event to better suit your company or have suggestions on other events?

Contact **foretag@momentkth.se** and we will be happy to help you!

Marketing is included in all the events.

LUNCH LECTURE

During the year, the company can organise lunch lectures for students! A lunch lecture gives students a valuable insight into what working life can look like after graduation, as well as giving them the possibility to ask questions directly to professionals within the industry.

LUNCH LECTURE

LUNCH LECTURES

Lunch lectures allow the companies to present themselves in a unique way for many students at once. During the lunch fair, the company has 45 minutes to inform, inspire and spark interest in the students as they are offered food. The lectures are highly praised and are quick to be packed out.

OPPORTUNITIES FOR LUNCH LECTURES

Lectures can be arranged throughout the whole year or in various contexts, including:

- In connection with MOMENT
- In connection with the Student Reception
- In connection with other events
- Exclusively for masters programmes

10 000 SEK EXCL. FOOD

Are you interested in hosting a lunch lecture?
Contact **foretag@momentkth.se** and we will help you arrange it!
Marketing is included with the purchase of lunch lectures.

THE STUDENT RECEPTION

The Student Reception presents companies with a unique opportunity to establish early contact with both new and older students. Through visibility during this period, you can build brand awareness from day one and position yourself as a natural part of the students' future career paths.

THE STUDENT RECEPTION

WHAT IS THE STUDENT RECEPTION?

The Reception takes place in August and goes on for three weeks where newly accepted students will be introduced to KTH and the Mechanical Engineering Chapter. The introduction is led by dedicated older students, otherwise known as "phösare", who volunteers to create a welcoming and inclusive start to their studies.

PARTICIPATION IN THE RECEPTION

The company can, in different ways, showcase themselves in front of students to create a first impression.

Marketing for the company during the Student Reception can be done through, for example:

- Lunch lectures
- Having a station/booth
- Visible branding
- Other events

SPONSORSHIP OF THE RECEPTION

Sponsorship during the Reception is greatly appreciated and can be designed at multiple levels, for example by supporting an event or as a main sponsor for the entire Reception. The sponsorship package and associated deliverables are designed in dialogue to create the greatest possible value for both parties.

Are you interested in participating in the Student Reception?
Contact **foretag@momentkth.se** and we will help you!

MARKETING

As a company, you have the opportunity to reach out to the students at the Mechanical Engineering Chapter throughout the whole year! Partnering with us means you get direct contact with students who are actively seeking inspiration, career opportunities and innovative ideas.

MARKETING

Reach out to our students digitally, for example by sharing posts on our social media, such as, **Instagram**, **LinkedIn**, and **Facebook**. This is an effective way to display the company's working culture, projects or career opportunities. Through email marketing you can communicate news, offers or other important announcements directly to the chapter's members.

In addition to digital exposure, we also offer visibility in our physical spaces. The company's logo and messages can be displayed on bulletin boards and on screens in our premises, which will provide continuous and tangible visibility among students.

If there is interest in custom marketing, contact **foretag@momentkth.se** and we will tailor the best solution for you!

5 000 SEK

Posters in the chapters premise

2 000 SEK

Slideshow on TV

1 000 SEK/2 weeks

Email campaign (to about 1 100 students)

4 000 SEK

SPONSORSHIP

For companies looking to take the next step, we offer possibilities for sponsorships. By sponsoring the Mechanical Engineering Chapter, you can gain even greater visibility while contributing to the students' education and activities.

SPONSORSHIP

Sponsorship can be done in several ways, such as by contributing with new items to the chapter's premises, finance the student newspaper, gasques or working spaces and equipment to the chapter's premises. As a thank you for your support, the sponsors will get increased brand awareness in our channels, visibility on our visors and printed material, as well as exclusive presence in environments where students gather and work.

Sponsorship is not only a chance to establish a brand, it is also an investment in future engineers and potential collaborators.

The sponsorship package and its associated benefits are designed through dialogue to create the greatest possible value for both parties.

For interest in sponsoring the chapter, contact **foretag@momentkth.se** and we can discuss the best possible benefits for both parties!
